

AJIN GEORGE THOMAS

Ernakulam, Kerala | +91 [8137086477](tel:8137086477) | ajingthomas7@gmail.com | [LinkedIn](#) | [Portfolio](#)

WORK EXPERIENCE

1. SOC Analyst - CyberDisti Pvt Ltd, Ernakulam, India

June 2025 – Present

- Monitored and triaged 500+ security alerts daily using Seceon aiSIEM and aiXDR; reduced MTTD by 30% through real-time log correlation and IOC-based threat hunting aligned with MITRE ATT&CK framework.
- Administered Splunk Enterprise for 10+ log sources — configured indexes, sourcetypes, Universal Forwarders, RBAC, and SPL dashboards cutting manual investigation time by 40%.
- Led end-to-end incident response for 50+ security incidents; maintained security playbooks, tuned false positives, and delivered stakeholder-ready reports with remediation recommendations.

2. Cybersecurity Researcher - RedTeam Hacker Academy, Trivandrum, Kerala

Nov 2024 – April 2025

- Configured Splunk Enterprise, Wazuh, IBM QRadar, and ELK Stack across 5+ environments; authored 20+ SPL detection use cases and dashboards mapped to MITRE ATT&CK techniques.
- Conducted VAPT on 10+ web applications using Burp Suite, OWASP ZAP, and Metasploit; uncovered 30+ critical vulnerabilities (SQLi, XSS, CSRF) and delivered CVSS-scored pentest reports with remediation roadmaps.
- Developed 5+ security monitoring solution designs; contributed to effort estimation and client requirement documentation, building consulting-ready skills in solution design and technical reporting.

CORE TECHNICAL SKILLS

- SIEM & SOC Operations:** Splunk Enterprise Admin, Seceon aiSIEM, aiXDR, IBM QRadar, Wazuh, ELK Stack, Log Correlation, Alert Triage
- Splunk Administration:** Index Management, Universal/Heavy Forwarder Config, SPL, Sourcetype Config, Dashboards, RBAC, Data Onboarding, Alert Tuning
- Threat Hunting & Detection:** MITRE ATT&CK Mapping, Use Case Development, IOC Analysis, False Positive Tuning, Detection Engineering, Security Playbooks
- Incident Response & Security:** Incident Response, SOAR Concepts, IDS/IPS, EDR, Firewall Management, VAPT, Penetration Testing, Vulnerability Assessment
- Consulting & Solution Design:** POC Design & Delivery, Client Requirement Gathering, Solution Design, Effort Estimation, Client Interfacing
- Tools & Technologies:** Burp Suite, OWASP ZAP, Nikto, Metasploit, Nmap, Kali Linux, Wireshark, Linux, Python (Django), HTML/CSS/JavaScript, SQL

PROJECTS

1. Website Log Monitoring & Threat Detection using Splunk on WordPress

(SOC Project)

- Deployed Splunk Enterprise end-to-end: configured Universal Forwarders, 3 custom indexes, 10+ SPL dashboards and real-time alerts; reduced anomaly detection time by 60%.
- Mapped 15+ threats to MITRE ATT&CK and produced a client-ready security assessment report with prioritized remediation recommendations.

2. Vulnerability Assessment and Penetration Testing (VAPT) on Web Applications

(VAPT Project)

- Performed VAPT on 10+ web applications using Burp Suite, OWASP ZAP, and Nikto; identified 30+ vulnerabilities including SQLi, XSS, CSRF, and Parameter Tampering.
- Delivered a CVSS-scored consulting-grade pentest report with proof-of-concept evidence and a structured remediation roadmap presented to stakeholders.

3. Metro Rail Management System | Python (Django), HTML, CSS, JavaScript

(MCA Project)

- Developed 3 modules (e-ticketing, route tracking, feedback) using Django; reduced manual booking errors by 40% and improved service access for 500+ users.

EDUCATION

Master Of Computer Applications - 72%

Sept 2022 – Sept 2024

Mar Thoma Institute of Information Technology, Ayur, Kollam, Kerala

Bachelor of Computer Applications - 72%

Jul 2019 – Mar 2022

Catholicate College, Pathanamthitta

CERTIFICATIONS

1. Certified SOC Analyst (CSA) – EC-Council

2. Certified IT Infrastructure and Cyber SOC Analyst – RedTeam Hacker Academy
